AFTER CLASS · 20 MIN · GMAIL · SHEETS

Lab 15: After Class: Task, Then Skill, Then Schedule on Your Expense Log

> Do it once by hand, save the method, and hand over the timing: the full always-on sequence on your own receipts.

Your goal

Practise the build order on one job: prove a task, save it as a skill, then schedule it (LO3).

The story so far

Receipts arrive in Gmail and nobody logs them. Run the task once, type turn this into a skill, then let Spark do it every Sunday. Optional.

You will deliver

- ☐ Northstar-Expenses in Sheets
- ☐ An expense skill
- ☐ A Sunday schedule

Before you start

A personal Google Account on Google AI Pro or Ultra, age 18+, Keep Activity and Personal Intelligence on. A laptop with Chrome. Copy every prompt from labs/prompts.html, or from the course prompts page: https://tertiarycourses.github.io/C1259-AI-Agents-with-Gemini-Spark/labs/prompts.html

Your mock data

File in data/	What it is
seed-receipts.txt	Three made-up receipts to send to yourself.

Steps

Step 1. Prove it as a task (8 min)

Where: Gmail, then Gemini → Task

Send yourself the three receipts, then paste the prompt. Check the total by hand.

PROMPT · COPY FROM THE LAB PROMPTS PAGE

```
Search emails with "[NORTHSTAR-LAB] Receipt" in the subject. Create a Google Sheet named Northstar-Expenses in my Gemini Spark Workspace/Northstar folder with vendor, date and amount, one row per receipt, and a total formula. Do not change any email.
```

Expect: Three rows and a total of S$168.40.

Step 2. Save the method as a skill (4 min)

Where: Same task thread

Paste the prompt, then check the skill on your Skills page.

PROMPT · COPY FROM THE LAB PROMPTS PAGE

```
Turn this into a skill named northstar-expenses. Only add receipts not already in the Sheet.
```

Expect: The skill appears on your Skills page.

Step 3. Hand over the timing (8 min)

Where: Gemini → Task, then Scheduled

Paste the prompt, then click More → Run now twice.

PROMPT · COPY FROM THE LAB PROMPTS PAGE

```
Every Sunday around 8 AM Singapore time, use @northstar-expenses to update
Northstar-Expenses. Tell me the new total. Do not send anything.
```

Expect: Run now adds no duplicate rows.

Checkpoint

The three test receipts total S$168.40, and the schedule adds rows without duplicating them.

If you finish early, or after class

• Pause this schedule when you finish, unless you want to keep it.

If Spark does not behave as described

Menus move and results vary, so this lab states what to expect and not exact wording. Check the source in Google Help, tell your trainer, and record what you actually saw. No Pro or Ultra account in class? Pair with a neighbour and complete the Docs, Sheets and Sites templates by hand.

All company data in this lab (Northstar Studio, people, enquiries, reviews, numbers) is fictional and generated for training.
